T25-470

By cutting up along the stump long and big chips are achieved

By cutting up along the stump long and big chips are achieved

T25-470

Power required 25-55 HP (19-41 KW)
PTO speed (shaft incl.) 540 rpm/min
Hydr. connection 1 double or single + return
 2 hydraulic quick couplers
Oil flow max 35 l/min (min 150 bar)

Cutting disc w/teeth Ø 470 mm
No. of teeth (Ø size) 18 (20,5 mm)

2 hydraulic above/below 350/400 mm
motions..... width 1000 mm
Chips guard adjust able 4 steps

Lift arms and hydr. top bar cat. I

Machine size: Height..... 1100 mm
Length*width 1750*1000 mm
Weight 240 kg

Easy through narrow passage

Weight

Working width
100 cm

240 kg

The chip guard is adjustable, depending on working high or deep

Logic control with joy-stick

Adjustable swing speed

Hydraulic top bar is standard and integrated w/joy-stick, so the stump cutter is kipped for adjusting height and depth
